

Sorting instructions

Combustible waste

- sanitary waste
- dirty paper, packaging and cardboard
- plastic buckets, cans, toys, etc.
- dry pet waste (cat litter, sawdust, etc.) packed tightly in a sealed bag
- unusable textiles, clothing, and shoes which are not suitable for the textile waste
- small pieces of mirror and glass, and porcelain and ceramic containers
- incandescent light bulb
- giftpaper
- polystyrene, polyurethane, foam plastic and plastic sheeting
- fireplace ashes and cigarette stubs, completely cooled and packed tightly in a sealed bag

Biowaste

- leftover food
- expired food
- fruit and vegetable peel
- coffee grounds and tealeaves with filters
- small amounts of kitchen paper and serviettes

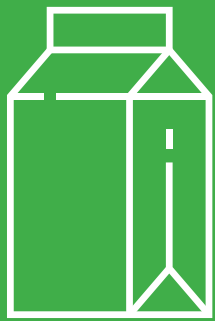

Pack the biowaste in a biodegradable bag, a folded newspaper or a paper bag.

Recycling paper

- newspapers and magazines
- envelopes
- advertisements
- photocopying paper
- books, with the covers detached (covers are combustible waste)

Do not pack in bags, or bundle with tape or string.

Cardboard packaging

- cardboard packaging
- liquid packages and cartons (including those with a plastic cap)
- kraft paper
- paper bags

Plastic packaging

- dry and clean plastic packaging
- plastic bags and wraps
- plastic corks and lids

Glass packaging

- empty glass jars and bottles
(cap rings do not need to be removed)

Small metal

- food tins
- non-recyclable cans
- metal caps and lids
- small metal items (e.g. pans, saucepans, nails)
- aluminium foil and trays
- aluminium tealight cases
- empty aerosol cans and tins of paint

! Take hazardous waste, electrical equipment and large waste to Vestia's sorting yards.

! Take medical waste to pharmacies (free of charge).
